REPRESENTATIVE IMAGERY

INVESTMENT SUMMARY

A rooms-led lifestyle hotel, sized to what downtown Salt Lake City pays today.

The Halite is a 220-key upscale hotel with one restaurant, a rooftop bar and a wellness floor. It opens in mid-2030, months before the rebuilt Salt Palace reopens, and stabilizes ahead of the February 2034 Winter Games.

The base case uses market data only. Olympic-year rate compression and the convention center's reopening lift are not included.

WHY NOW

Salt Lake City is rebuilding its core on a fixed deadline.

Jul 24, 2024

2034 Winter Games awarded

The IOC named Salt Lake City-Utah host of the 2034 Olympic and Paralympic Winter Games. The bid must secure nearly 24,000 hotel rooms.

By 2034

Sports and entertainment district

$3 billion in private investment around a remodeled Delta Center, with up to $900 million in public bonds from a 0.5% sales tax.

2027–2031

Salt Palace rebuild

The convention center closes in September 2027 and reopens in late 2030 or early 2031, expanded and modernized.

2022 → 2034

Downtown population nearly triples

About 4,900 people lived downtown in 2022. Projections reach 14,000 by 2034, alongside 35,000 downtown workers.

FORMAT FOLLOWS THE MATH

Why an upscale lifestyle hotel, and not full-service.

MEDIAN DEVELOPMENT COST PER ROOM, U.S., 2026 (HVS)

$39K

NOI per key a full-service hotel would need, at the HVS median of $467K, to match our 8.3% yield on cost.

$27K

Stabilized NOI per key for The Halite in Year 3. Full-service would need 46% more.

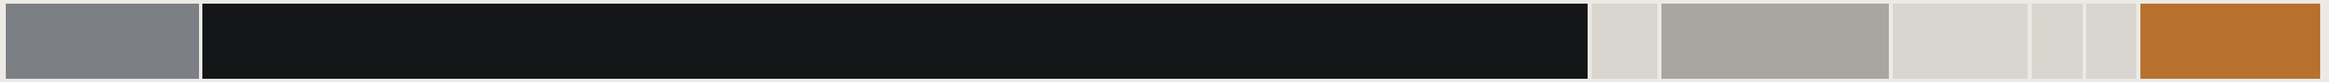

80%

Share of revenue from rooms. One restaurant and one rooftop bar, with no banquet operation to staff.

DEVELOPMENT BUDGET

$70.6M, or $321K per key.

Hard costs are 60% of the budget. The 5% hard-cost contingency sits on top of a guaranteed-maximum-price contract target.

Common equity
$23.3M
33% of total cost

C-PACE $8.5M 12% of cost

Senior construction loan
$38.8M
55% of total cost

SENIOR CONSTRUCTION LOAN

$38.8M at 55% of cost, below the 65% banks lend on hotels today. SOFR + 400 bps, 7.88% all-in, interest-only through Year 5.

C-PACE

$8.5M for qualifying energy systems. 7.25% fixed, 25-year amortization, repaid through a property assessment.

COMMON EQUITY

$23.3M: $21.0M from limited partners (90%) and $2.3M from the sponsor (10%). An 8% preferred return to all equity before any promote.

LOCAL PRECEDENT

The 700-room Hyatt Regency Salt Lake City financed **$54.7 million** of its $377 million cost with C-PACE in 2020, **14.5%** of the project and a national record at the time. The Halite assumes 12%.

OPERATING PROJECTION

Stabilized NOI of $5.9M in Year 3.

ADR starts at a 114% index to the downtown market and settles at 122%. GOP reaches 40%, above the 34.8% all-hotel average, because the format is rooms-led. NOI is shown after a 3% management fee, fixed charges and a 4% FF&E reserve.

RISKS AND MITIGANTS

What could go wrong, and what is in place.

RISK	EXPOSURE	MITIGANT
Convention center closure	The Salt Palace is closed until late 2030 or early 2031, overlapping the first operating months.	Year 1 occupancy is modeled at 64%. A Year 1 shortfall of $0.3M is funded by equity and included in the returns.
Negative leverage early	The 7.88% loan rate exceeds Year 1 yield. Year 1 coverage is 0.92x.	Leverage held at 55% of cost. Coverage reaches 1.54x by Year 3.
Construction cost	A 10% hard-cost overrun cuts the IRR to 6.4%.	Guaranteed-maximum-price contract target, 5% hard-cost contingency, design frozen before close.
Labor cost	Hotel labor rose 2.9% per occupied room in 2025; payroll per available room is growing 4–5% a year.	Rooms-led format, a partner-run restaurant and no banquet operation.
New supply	Olympic demand may bring other hotels into the same window.	A half-mile site at the core of the walkable gap, and a product positioned above the downtown average rate.
